Retail: 1,500 JPY

Wing span: 103mm

Material: Stainless steel(fuselage), Aluminum(wheels)

Tools recommended: Modeling knife and tweezers (No need of glue)

Time to build: 30 minutes ASSEMBLE JUST LIKE AN ORIGAMI PAPER

Not suitable under 15 years of age

about AEROBASE

After my 9 year experience as a professional modeler in TAMIYA, Inc. (the model and RC car manufacturer in Shizuoka, Japan), I founded AEROBASE in my home town Wakayama in 1996.

My goal is to spread the fun of model making. "Easy to assemble, Best quality" This is my motto.

President / Model kit designer Shinichi IWAMI
